

CARRIER VESTS

Liners / Inserts

All of our products are built within product generations to highlight innovation and product evolution.

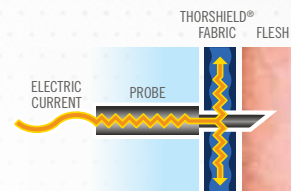

The Generation III family of fabrics provides protection from Electroshock weapons such as TASER brand devices and Stun Guns. ThorShield is in production and serves thousands of Law Enforcement Officers today. They have chosen ThorShield Generation III material to keep them safe from Electroshock weapons. ThorShield has been protecting Officers in the field since 2006.

FEATURES:

- ▶ Thorshield Electronic Control Device or Electro Shock Weapon protection
- ▶ Anti Static Discharge protection
- ▶ Extremely thin and light weight fabric
- ▶ Durable and Transparent to existing NIJ rated carriers
- ▶ Machine Washable per laundering instructions

MULTI-THREAT PROTECTION

ThorShield provides a highly conductive layer of fabric ensuring the electrical current conducts through the fabric versus your body.
